## Educational Background

- **B.Tech in Computer Science Engineering**
  **SDIT,Manglore- 8.43 CGPA**
  2019-2023
- **HSC - 79.83%**
  Pompei PU College, Kinnigoli
  Completed in 2019
- **SSLC - 89.28%**
  Maryvale High School, Kinnigoli
  Completed in 2017

## Analytical Projects

### Web Scraping & Match prediction using Python(ML)

In this project web Scraping is done on the English Premier League Stats to acquire the data and then machine learning models are applied on the dataset to predict the winner.

### Walmart Sales Data Analysis using SQL

The project aims to explore Walmart Sales Data to understand top performing branches and products,sales trend of different products,customer behaviour.The aim is to study how sales strategies can be improved and optimized.

### COVID-19 Data Analysis & Visualisation using Power BI

This project provides a spectacle on the analysis of COVID-19 data for EU/EEA retrieved from the official European centre for disease prevention and control,the dashboard allows us to filter COVID report based on the year,week and country.

### Road Accident analysis & Dashboard using Excel

Road accidents tend to have a wide range of spectrum for its causation.This project uses Excel to perform data cleaning and analysis to create power pivots on the available dataset to bring forth a visually appealing dashboard with filters and slicers.

## Technical Skills

- Power BI
- Python
- Excel
- SQL
- Statistics
- React.js
- Node.js
- HTML
- CSS

## About Me

As a data enthusiast,adept at turning information to valueable insights.With a keen eye for patterns and problem Solving.As a beginner,I embrace new challenges with an open mind and have a thirst for knowledge.My adaptability allows me to learn and apply new concepts,making me an asset in dynamic work environments.

## Internships

### Full Stack Development | Aug 2022-Sept 2022

Manipal Technologies Ltd.

Gained hands-on experience in Full Stack Development. Mastering the MERN stack from its fundamentals and gaining practical experience in full-stack development through project work.

Gained foundational knowledge in MongoDB database management and began to explore the integration of Express.js, React, and Node.js for developing dynamic web applications.

Developed a genuine enthusiasm for React and frontend development

### Web Development intern | May 2022-jul 2022

Compsoft Technologies

Developed website for nature enthusiasts and help them to sell or donate plants and seeds as part of green initiative.

Below are few crutical featues of this app.

User is able to create an account on the site and then he can buy the plants/seeds which he/she wants.

It encourages users to donate the seeds/plants by just filling a form.

The feedback form which enables us to understand the user experience on the site

Technology used are Bootstrap, HTML, CSS,Django

## Extra curricular & Certifications

- Enthusiastic blog writer on Medium
- Applied Data Science with Python-Level 2 by IBM.
- Microsoft Excel Advanced 2019 by Infosys.
- Participant of data Analytics virtual Experience by Accenture.
- Data Analytics Essentials by Cisco.
- Data Analyst in SQL by Datacamp.
- Machine learning statistics by LinkedIn learning.

## Soft Skills

- Critical Thinking
- Team player
- Problem Solving
- Time Management
- Quick Learner
- Effective Communication
